Smart ERP solution to manage your business.

OUR ERP

Datos ERP is a smart ERP solution to manage your business. Datos ERP software not only helps you to manage your business but also keeps track of your inventory and human resources. It has a full account management system also. To limit your small & big business, outlet or company Datos ERP is the right choice. Datos provides you the best ERP software for small businesses. It can be integrated with an external Android POS App.

● POS System

OUR POINT OF SALE

Point of Sale (POS) system

Is a complete integrated solution that facilitates the retail sales that can be hosted online with offline operability in case of disconnection in the internet.

System based on PHP (Laravel)

With native integrations to Datos ERP systems, but can be also integrated with other standard ERP systems such as Oracle, SAP or any other systems for inventory management, sales processing, procurement, customers, invoicing and much more.

Update your stock information

With the POS system you can update your stock information, make purchases and view sales information from anywhere and at any time, and whether you run a small business or a large enterprise.
